Deputy Director
Intelligence Community Staff
Washington, D.C. 20505

22 April 1987

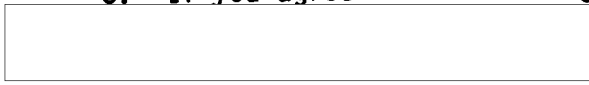

Mike
MEMORANDUM FOR: Major General Michael J. Dugan, USAF
Assistant Deputy Chief of Staff Plans and Operations

SUBJECT: Future Reconnaissance Requirements

1. I appreciate your invitation to discuss our mutual interest in future aircraft reconnaissance platforms. I think it would be highly beneficial for us to understand each other's requirements and special needs so that the nation can receive the greatest possible benefit from the investment involved.

2. Since the IMCG could prove to be a difficult forum in which to exchange views, I think a private meeting with limited staff attendance could prove useful. I consider this especially timely since we will be conducting a review of FY 1989 and FY 1990 this summer, and the Community will have to address the issue of participation in a U-2 follow-on program.

3. If you agree that a meeting would be useful, I will have my secretary,  arrange a convenient date with your office.
